

OSBORNE & LITTLE

PRESS RELEASE AUTUMN 2012

NEW COLLECTIONS

CABOCHON

A collection of glamorous fabrics and wallpapers inspired by jewellery and fashion. Many of the names make reference to celebrated jewellery designers and jewellery techniques. The colours include key tones from Osborne & Little's contemporary palette such as chartreuse, coral, cranberry, sapphire and peacock.

CATAMARAN

A collection of stripes and checks with a nautical theme especially suited to more informal decorating schemes. These dual purpose fabrics are presented in colourings which combine ivory and taupe with livelier tones of red, chartreuse, plum, turquoise and sapphire.

RONDELLE

Five small-scale chenille patterns woven in combinations of viscose with cotton are evocative of styles and techniques in jewellery design.
